CASE NO. [REDACTED]

**CLASS ACTION**

**COMPLAINT FOR VIOLATION OF  
THE FEDERAL SECURITIES LAWS**

**DEMAND FOR JURY TRIAL**

## **INTRODUCTION**

2       1. This is an action on behalf of purchasers of Ariba, Inc. (“Ariba” or the “Company”)  
3 publicly traded securities during the period from January 11, 2000 to January 15, 2003 (the “Class  
4 Period”). Ariba is a spend-management software solutions provider. Ariba provides software,  
5 services and network access to enable corporations to evaluate and manage the cash costs associated  
6 with running their business.

7       2. On January 15, 2003, the Company issued a press release entitled, "Ariba Provides  
8 UPdate on Accounting Review and restatement of Financial Statements." The press release stated  
9 in part:

10 Ariba, Inc. announced today that it will restate its financial statements for the fiscal  
11 years ended September 30, 2001 and 2000 and for the quarters ended March 31, 2000  
12 through June 30, 2002 as a result of an ongoing review of accounting matters. The  
Company also announced that because this review is not yet completed, it has not yet  
filed its annual report on Form 10-K for the fiscal year ended September 30, 2002  
with the Securities and Exchange Commission.

As previously disclosed, Ariba has determined that, for accounting purposes, it should treat a \$10.0 million payment provided personally by Keith Krach, Ariba's chairman and co-founder, in March 2001 to Larry Mueller, its president and chief operating officer at the time, as a \$10.0 million capital contribution from Mr. Krach to Ariba and the payment of Compensation from Ariba to Mr. Mueller. Because no company funds were used and there was no commitment to or from Ariba, the company originally viewed the payment as a personal transaction.

The company has further determined that chartered air services, provided personally by Mr. Krach to Mr. Mueller, should be treated similarly as a capital contribution from Mr. Krach to Ariba and a payment of compensation from the company to Mr. Mueller. These services were provided over the period from September 2000 through July 2001 at a total cost of \$1.2 million.

In addition, Ariba has concluded that certain stock options issued to a limited number of individuals by companies that Ariba acquired during fiscal 2000 should be accounted for as stock-based compensation expense to Ariba, rather than amortized as goodwill. As a result, an increase in non-cash stock-based compensation expense and a reduction of goodwill amortization expense will be reflected in Ariba's restated financial statements for fiscal 20900, 2001 and 2002.

None of the above-described adjustment has any impact on Ariba's cash balances or net cash flows for any period. In addition to the \$10.0 million payment, the adjustment for the chartered air services amounts to \$1.2 million. The cumulative adjustments related to the stock options amount to \$7.5 million, consisting of increases to Ariba's expenses for fiscal 2000 and 2001 of \$8.7 million and \$12.0 million, respectively, and a reduction of expenses for fiscal 2002 of \$13.2 million.

As a result of these accounting adjustments investors should not rely on the financial information contained in the company's previously filed annual report on Form 10-K for the fiscal years ended September 30, 2000 and September 30, 2001 or in the company's quarterly report on Form 10-Q for the quarters ended March 31, 2000 through June 30, 2002.

The ongoing accounting review is focused on the company's fiscal 2000 financial statements. Ariba is committed to performing a complete and thorough review of these matters and expects the review to be completed by the end of February 2003. Ariba intends to file its annual report on Form 10-K for the fiscal year ended September 30, 2002 after the completion of the review.

Ariba also announced that it expects to receive a NASDAQ staff determination that it is subject to delisting from the NASDAQ Stock Market as a result of failing to timely file its annual report on Form 10-K for the fiscal year ended September 30, 2002. Upon receipt of this determination, Ariba intends to request a hearing before a NASDAQ panel will grant Ariba's request for continued listing.

10       3.     While Ariba's financial statement were admittedly false, the Company's top officers  
11 and directors took advantage of this and sold nearly \$692 million worth of their Ariba shares to the  
12 unsuspecting public.

## **JURISDICTION AND VENUE**

14       4. The claims asserted arise under §§10(b) and 20(a) of the Securities Exchange Act of  
15 1934 (“1934 Act”). Jurisdiction is conferred by §27 of the 1934 Act. Venue is proper pursuant to  
16 §27 of the 1934 Act as defendant Ariba and/or the Individual defendants conduct business in and  
17 the wrongful conduct took place in this District.

## THE PARTIES

19       5. Plaintiff Ben Gross purchased Ariba publicly traded securities as detailed in the  
20 attached Certification and was damaged thereby.

21       6.     Defendant Ariba is a spend-management software solutions provider. Ariba provides  
22 software, services and network access to enable corporations to evaluate and manage the cash costs  
23 associated with running their business.

24       7.      Defendant Kirk A. Cruikshank (“Cruikshank”) was Executive Vice President of  
25 Ariba. During the Class Period, Cruikshank reaped more than \$46 million in insider trading  
26 proceeds.

27        8.      Defendant Rune C. Eliasen (“Eliasen”) was Vice President and a director of Ariba.  
28 During the Class Period, Eliasen reaped over \$51 million in insider trading proceeds.

1           9.       Defendant Rober J. DeSantis (“DeSantis”) was an officer and Executive Vice  
2 President of Ariba. During the Class Period, DeSantis reaped over \$189 million in insider trading  
3 proceeds.

4           10.     Defendant Paul Hegarty (“Hegarty”) was a director of Ariba. During the Class  
5     Period, Hegarty reaped over \$83 million in insider trading proceeds.

6        11.      Defendant Edward P. Kinsey (“Kinsey”) was CFO and Executive Vice President of  
7 Ariba. During the Class Period, Kinsey reaped over \$97 million in insider trading proceeds.

8        12. Defendant Karl C. Kleissner (“Kleissner”) was Senior Vice President of Ariba.  
9 During the Class Period, Kleissner reaped over \$46 million in insider trading proceeds.

13. Defendant Keith J. Krach (“Krach”) was CEO and a director of Ariba. During the  
14. Class Period, Krach reaped over \$180 million in insider trading proceeds.

12        14. Defendants Cruikshank, Eliasen, DeSantis, Hegarty, Kinsey, Kleissner and Krach are  
13 the “Individual Defendants.” They are liable for the false statements pleaded in ¶¶15-17 and 19-22,  
14 as those statements were “group-published” information.

## **FALSE AND MISLEADING STATEMENTS DURING THE CLASS PERIOD**

17        15. On January 11, 2000, the Company issued a press release entitled, "Ariba Announces  
18 Record first Quarter Revenues of \$23.5 Million, Up 243%; Net Loss Per Share \$0.07, Beats First  
19 Call Estimates." The press release stated in part:

20 Ariba, Inc., the leader in business-to-business electronic commerce, today announced record results for the first quarter ended December 31, 1999.

22 Revenues for the first quarter of fiscal 2000 marked the largest quarter in  
Ariba's history at \$23.5 million, up 243 percent from the same period last year. Net  
23 loss for the quarter excluding the amortization of stock-based compensation was \$5.6  
million or a loss of \$0.07 per share, beating the First Call consensus estimate of a  
24 loss of \$0.11 per share. During the corresponding quarter in fiscal 1999, the net loss  
was \$1.2 million or a loss of \$0.07 per share, excluding the amortization of stock-  
25 based compensation. Including the amortization of stock-based compensation, net  
loss for the first quarter of fiscal 2000 was \$10.3 million or a loss of \$0.13 per share.

26        16. On April 12, 2000, Ariba issued a press release entitled, "Ariba Announces Record  
27 Second Quarter Revenues of \$40 Million, Up 322%; Net Loss Per Share \$0.06, Beats First Call  
28 Estimates." The press release stated in part:

1 Ariba, Inc., the leading business-to-business (B2B) eCommerce platform provider,  
 2 today announced record results for the second quarter ended March 21, 2000.

3 Revenues for the second quarter of fiscal 2000 marked the largest quarter in  
 4 Ariba's history at \$40.0 million, up 322 percent from the same period last year. Net  
 5 loss for the quarter excluding non-operating charges was \$11.5 million or a loss of  
 6 \$0.06 per share, beating the First Call consensus estimate of a loss of \$0.08 per share.  
 7 During the corresponding quarter in fiscal 1999, the net loss was \$2.8 million or a  
 8 loss of \$0.07 per share, excluding non-operating charges. Including all charges, net  
 9 loss for the second quarter of fiscal 2000 was \$125.9 million or a loss of \$0.70 per  
 10 share, reflecting costs associated primarily for acquisitions. All results are adjusted  
 11 for a 2-for-1 stock split effective March 31, 2000.

12 \* \* \*

13 "The second quarter was a watershed period for Ariba. We increased our  
 14 customer base by over 100 percent and grew our revenue by 322 percent," said Keith  
 15 Krach, chairman and chief executive officer of Ariba. "At the same time, we beat  
 16 analyst EPS expectations and showed another consecutive quarter of cash flow  
 17 positive from operations, demonstrating the Company's ability to grow rapidly while  
 18 continuing to show high quality financial performance."

19 17. On July 12, 2000, Ariba issued a press release entitled, "Ariba Announces Record  
 20 Third Quarter Revenues of \$80.7 Million, Up 578%; Net Los Per Share \$0.05, Beats First Call  
 21 Estimates." The press release stated in part:

22 Ariba, Inc., the leading business-to-business (B2B) eCommerce platform and  
 23 network services provider, today announced record results for the third fiscal quarter  
 24 ended June 30, 2000.

25 Revenues for the third quarter of fiscal 2000 marked the largest quarter in  
 26 Ariba's history at \$80.7 million, up 101 percent from the previous quarter and up 578  
 27 percent from the same period last year. Net loss for the quarter excluding non-  
 28 operating charges was \$11.3 million or a loss of \$0.05 per share, beating the First  
 Call consensus estimate of a loss of \$0.08 per share. During the corresponding  
 quarter in fiscal 1999, the net loss was \$6.0 million or a loss of \$0.11 per share,  
 excluding non-operating charges.

29 "Our focus on delivering quality technology, deployment excellence, great  
 30 partnerships and customer driven results is once again manifested in our high quality  
 31 financial performance this quarter. We doubled our revenues from last quarter,  
 32 signed more than 100 new deals, and deployed more than twice as many customers  
 33 as last year," said Keith Krach, Ariba's chairman and chief executive officer. "Going  
 34 forward, Ariba will continue to provide the leadership, innovation and underlying  
 35 B2B infrastructure creating unprecedented value for buyers, suppliers and  
 36 marketplaces."

37 18. On October 18, 2000, Bloomberg carried an article entitled, "Ariba 4th Qtr Loss  
 38 Widens on Higher Expenses as Sales Surge." The article stated in part:

1 Ariba, Inc., which makes software to help companies buy and sell goods over the  
 2 Internet, said its fourth-quarter loss widened as expenses surged and sales rose more  
 than eightfold.

3 The loss widened to \$339.3 million, or \$1.50 a share, from \$9.88 million, or  
 4 7 cents, a year ago. Excluding amortization, Ariba lost \$1.06 million, or break-even  
 a share. On that basis, it was expected to lose 5 cents a share, the average estimate of  
 5 37 analysts polled by First Call/Thomson Financial. Sales rose to \$134.9 million  
 from \$17.1 million.

6 Ariba's losses and revenue are growing as the software maker boosts sales  
 7 staff and marketing expenses to win business customers and build Web marketplaces  
 where companies can buy and sell supplies. Operating expenses roles to \$117.5  
 million, from \$19.9 million a year ago.  
 8

9 19. On April 20, 2001, the Company issued a press release entitled: "Ariba Announces  
 10 Second Quarter 2001 Results; Q2 Fiscal 2001 revenues up 126 Percent Year Over Year." The press  
 11 release stated in part:

12 Ariba, Inc. the leading business-to-business (B2) eCommerce platform and network  
 13 services provider, today announced results for the fiscal second quarter ended March  
 31, 2001.

14 Revenues for the second quarter of fiscal 2001 were \$90.7 million, up 126  
 15 percent from the same period last year. Pro forma net loss for the quarter excluding  
 certain special charges was \$48.3 million, or a loss of \$0.20 per share. During the  
 corresponding quarter in fiscal 2000, the comparable pro forma net loss was \$11.5  
 16 million, or a loss of \$0.06 per share, excluding certain special charges.

17 \* \* \*

18 On April 2 the company revised its guidance for the quarter, reflecting the  
 19 weakening macroeconomic climate. The Company also announced a plan to reduce  
 spending across all major areas, including aw reduction in workforce by  
 approximately 30 percent of the total employee base.  
 20

21 "The slowdown in both the economy and technology spending impacted our  
 22 business more dramatically than we had expected," said Bob Calderoni, Ariba's  
 CFO. "While the current uncertain market conditions provide low visibility going  
 forward, we took decisive and immediate actions to realign our expense structure to  
 reflect today's economic realities. We believe a strong focus on operational  
 23 efficiencies and financial discipline will help us weather the current environment and  
 should position us well as the economy recovers."

24 As a result of the difficult economic conditions and other factors, Ariba has  
 25 incurred a total of approximately \$33.6 million in special charges relating to, among  
 other things, equity investments, and costs related to the canceled Agile acquisition.  
 The Company also has written down approximately \$1.4 billion of goodwill related  
 26 to an acquisition.  
 27

28

1           20. On October 24, 2001, the Company issued a press release entitled, "Ariba Reports  
 2 Results for Fourth Quarter and Fiscal 2001; Q4 Fiscal 2001 Revenue Beats Analyst Estimates."  
 3 The press release stated in part:

4           Ariba, Inc., the leading spend management solutions provider, today announced  
 5 results for the fourth quarter and fiscal year ended September 30, 2001.

6           Quarterly Results

7           Revenues for the fourth quarter of fiscal 2001 were at \$62.6 million. Net loss  
 8 for the quarter excluding certain non-cash and special charges was \$27.7 million or a  
 9 loss of \$0.11 per share, beating the First Call consensus estimate of a loss of \$0.13  
 10 per share. During the corresponding quarter in fiscal 2000, the net loss was \$1.1  
 11 million or a loss of \$0.00 per share, excluding certain non-cash and special charges.

12           Net loss on a GAAP basis for the fourth quarter of fiscal 2001 was \$224.3  
 13 million, or a loss of \$0.89 per share. During the corresponding quarter in fiscal 2000  
 14 the net loss on a GAAP basis was \$339.3 million, or a loss of \$1.50 per share.

15           Fiscal Year Results

16           Fiscal year 2001 results were \$408.8 million, up 47 percent versus \$279.0  
 17 million in fiscal 2000. Net loss for the fiscal year 2001 excluding certain non-cash  
 18 and special charges was \$88.1 million or a loss of \$0.36 per share. During fiscal  
 19 2000, the net loss was \$29.5 million or a loss of \$0.15 per share, excluding certain  
 20 non-cash and special charges.

21           Net loss on a GAAP basis for fiscal year 2001 was \$2,680.7 million, or a loss  
 22 of \$10.96 per share. During the corresponding fiscal year 2000, net loss on a GAAP  
 23 basis was \$792.8 million, or a loss of \$4.10 per share.

24           "We reported a solid quarter despite the soft economic environment and the  
 25 unexpected and tragic events in September," said Bob Calderoni, president and CEO,  
 26 Ariba. "Because we quickly responded to the early signs of the changing economic  
 27 climate and took the necessary steps, our focus now is entirely on customers and our  
 28 strategy for growth. Our revenues are in line with our original forecast, our cash  
 remains strong at \$294 million, and we are well positioned for future profitability."

29           Our October 17, 2001, Ariba announced the appointment of Bob Calderoni as  
 30 president and CEO. Founder Keith Krach will remain as chairman of the board.

31           21. On January 22, 2002, the Company issued a press release entitled, "Ariba Reports  
 32 Results for First Quarter Fiscal 2002; Quarterly Revenues Total \$55.3 Million." The press release  
 33 stated in part:

34           Ariba, Inc., the leading enterprise spend management solutions provider, today  
 35 announced results for the first fiscal quarter ended December 31, 2001.

36           Revenues for the first quarter of fiscal 2002 were \$55.3 million. Pro forma  
 37 net loss for the quarter excluding certain non-cash and special charges was \$6.9

1 million or a loss of \$0.03 per share, beating the First Call consensus estimate of a  
 2 loss of \$0.05 per share. Ariba's pro forma operating results exclude expenses related  
 3 to the amortization of goodwill and other intangible assets, business partner warrants  
 4 and stock-based compensation, all of which are included for GAAP reporting  
 5 purposes. During the corresponding quarter in fiscal 2001, pro forma net income  
 was \$14.0 million, or \$0.05 per share, excluding certain non-cash and special  
 charges. Net loss on a GAAP basis for the first quarter of fiscal 2002 was \$161.3  
 million, or a loss of \$0.63 per share. During the corresponding quarter in fiscal 2001  
 the net loss on a GAAP basis was \$347.6 million, or a loss of \$1.48 per share.

6 "In light of the continued soft global economic environment, I am pleased  
 7 with the solid results for the quarter," said Bob Calderoni, president and CEO of  
 8 Ariba. "The Ariba® Spend Management suite, especially Ariba® Enterprises  
 Sourcing™, gained traction in our existing installed base as well as with new  
 9 customers. As I look out to the second half of this calendar year, I expect further  
 reach from our new products. I feel this positions us well for pro forma profitability  
 and believe we could achieve pro forma break-even as early as June."

10 22. On April 24, 2002, the Company issued a press release entitled, "Ariba Reports  
 11 Results for Second Quarter Fiscal 2002; Quarterly Revenues Grow to \$57.2 Million." The press  
 12 release stated in part:

13 Ariba, Inc., the leading Enterprise Spend Management (ESM) solutions provider,  
 14 today announced results for the second fiscal quarter ended March 31, 2002.

15 Revenues for the second quarter of fiscal 2002 were \$57.2 million. Pro forma  
 16 net income for the quarter excluding certain non-cash and special charges was \$1.1  
 17 million, or \$0.00 per share, beating the First Call consensus estimate of a loss of  
 \$0.01 per share. Ariba's pro forma operating results exclude expenses related to the  
 18 amortization of goodwill and other intangible assets, business partner warrants,  
 restructuring and lease abandonment costs and stock-based compensation, all of  
 19 which are included for GAAP reporting purposes. For the second quarter of fiscal  
 20 2001, pro forma loss was \$48.3 million, or a loss of \$0.20 per share. Net loss on a  
 GAAP basis for the second quarter of fiscal 2002 was \$154 million, or a loss of  
 \$0.60 per share. During the corresponding quarter in fiscal 2001 the net loss on a  
 21 GAAP basis was \$1.8 billion, or a loss of \$7.60 per share.

22 "Despite a challenging market environment, I am pleased with Ariba's  
 23 performance during the March quarter. Ariba beat expectations once again,  
 strengthened revenues, improved pro forma earnings per share, and demonstrated  
 24 stability across the income statement and balance sheet," said Bob Calderoni,  
 president and CEO of Ariba. "Ariba is building a reputation as a company that  
 executes even in tough market conditions. We are well positioned for any  
 acceleration in top line revenue to directly result in pro forma profitability and  
 25 earnings growth. We have successfully hit pro forma breakeven before schedule and  
 expect pro forma earnings per share to increase when the market for IT spending  
 expands."

26 23. On December 31, 2002, the Company issued a press release entitled, "Ariba to  
 27 Restate Fiscal Year 2001 Financial Statements; Delays Filing of Fiscal Year 2002 Annual Report  
 28 on Form 10-K." The press release stated in part:.

1 Ariba, Inc. announced today that it will restate its financial statements for the fiscal  
 2 year ended September 30, 2001 for the quarter ended March 31, 2001 as a result of  
 3 an ongoing review by the company's audit committee. The review is focused on the  
 4 accounting treatment relating to certain benefits provided to a limited number of  
 5 employees of the company during fiscal years 2000 and 2001. In addition, Ariba has  
 6 delayed the filing of its annual report on Form 10-K for the fiscal year ended  
 7 September 30, 2002, which was due on Dec. 30, 2002, until this review is complete.  
 8 In connection with this delay, Ariba is filing a Notification of Late Filing or Form  
 9 12b-25 with the Securities and Exchange Commission (SEC).

10 The audit committee's review has primarily focused on a \$10 million  
 11 payment, provided personally by Keith Krach, the company's chairman and co-  
 12 founder, in March 2001 to Larry Mueller, the company's president and chief  
 13 operating officer at the time of the payment. Because no company funds were used  
 14 and there was no commitment to or from Ariba, the company originally viewed the  
 15 payment as a personal transaction. Ariba has now concluded that for accounting  
 16 purposes, the company should treat the \$10 million payment as a capital contribution  
 17 from Mr. Krach to the company and the payment of compensation from the  
 18 company to Mr. Mueller.

19 The \$10 million payment at issue does not affect the company's results of  
 20 operations for fiscal year 2002 nor does it affect the company's results of  
 21 operations for any quarter other than the quarter ended March 31, 2001. The  
 22 company's restated financial statements for the fiscal year ended September 30, 2001  
 23 and for the quarter ended March 31, 2001 will reflect a non-cash charge to the  
 24 company's fiscal 2001 operating expenses that does not affect the company's cash  
 25 balances, net assets or total stockholders' equity at March 31, 2001 or for any other  
 26 period.

27 The audit committee began this review on December 21, 2002, and expects to  
 28 complete it shortly. Although the review is not completed, Ariba has determined  
 29 that it will restate its financial statements for the fiscal year ended September 30,  
 30 2001 and the quarter ended March 31, 2001. The company's previously filed  
 31 financial statements for these periods do not reflect the \$10 million payment. As a  
 32 result, the restated financial statements will disclose an additional \$10 million in  
 33 compensation for such periods. Investors accordingly should not rely on the  
 34 financial information contained in the company's previously filed annual report on  
 35 Form 10-K for the fiscal year ended September 30, 2001 or in the company's  
 36 quarterly report on Form 10-Q for the quarter ended March 31, 2001. Restated  
 37 financial statements for these periods will be included in Ariba's annual report on  
 38 Form 10-K for the fiscal year ended September 30, 2002 filed with the SEC.

### **ARIBA'S FALSE FINANCIAL REPORTING DURING THE CLASS PERIOD**

24. The 2000-2002 results were included in Forms 10-Q and 10-K filed with the SEC.

25. The results were also included in press releases disseminated to the public.

26. Ariba has now admitted that it inappropriately recorded transactions included in its  
 27 2000-2002 results, and has restated those results to increase the Company's expenses such that its  
 28 2000-2002 financial statements were not a fair presentation of Ariba's results and were presented in  
 violation of Generally Accepted Accounting Principles ("GAAP") and SEC rules.

1        26.     GAAP are those principles recognized by the accounting profession as the  
 2 conventions, rules and procedures necessary to define accepted accounting practice at a particular  
 3 time. SEC Regulation S-X (17 C.F.R. §210.4-01(a)(1)) states that financial statements filed with  
 4 the SEC which are not prepared in compliance with GAAP are presumed to be misleading and  
 5 inaccurate, despite footnote or other disclosure. Regulation S-X requires that interim financial  
 6 statements must also comply with GAAP, with the exception that interim financial statements need  
 7 not include disclosure which would be duplicative of disclosures accompanying annual financial  
 8 statements. 17 C.F.R. §210.10-01(a).

9        27.     In Ariba's 2000-2001 Form 10-K, it represented that it recognized revenue and  
 10 expenses in accordance with GAAP.

11        28.     During the Class Period, Ariba failed to properly recognize expenses required to be  
 12 recognized by GAAP.

13        29.     On January 15, 2003, the Company issued a press release entitled, "Ariba Provides  
 14 Update on Accounting Review and Restatement of Financial Statements." The press release stated  
 15 in part:

16        Ariba, Inc. announced today that it will restate its financial statements for the fiscal  
 17 years ended September 30, 2001 and 2000 and for the quarters ended March 31, 2000  
 18 through June 30, 2002 as a result of an ongoing review of accounting matters. The  
 19 company also announced that because this review is not yet completed, it has not yet  
 20 filed its annual report on Form 10-K for the fiscal year ended September 30, 2002  
 21 with the Securities and Exchange Commission.

22        As previously disclosed, Ariba has determined that, for accounting purposes,  
 23 it should treat a \$10.0 million payment provided personally by Keith Krach, Ariba's  
 24 chairman and co-founder, in March 2001 to Larry Mueller, its president and chief  
 25 operating officer at the time, as a \$10.0 million capital contribution from Mr. Krach  
 26 to Ariba and the payment of compensation from Ariba to Mr. Mueller. Because no  
 27 company funds were used and there was no commitment to or from Ariba, the  
 28 company originally viewed the payment as a personal transaction.

29        The company has further determined that chartered air services, provided  
 30 personally by Mr. Krach to Mr. Mueller, should be treated similarly as a capital  
 31 contribution from Mr. Krach to Ariba and a payment of compensation from the  
 32 company to Mr. Mueller. These services were provided over the period from  
 33 September 2000 through July 2001 at a total cost of \$1.2 million.

34        In addition, Ariba has concluded that certain stock options issued to a limited  
 35 number of individuals by companies that Ariba acquired during fiscal 2000 should be  
 36 accounted for as stock-based compensation expense to Ariba, rather than amortized  
 37 as goodwill. As a result, an increase in non-cash stock-based compensation expense

1 and a reduction of goodwill amortization expense will be reflected in Ariba's restated  
 2 financial statements for fiscal 2000, 2001 and 2002.

3 None of the above-described adjustments has any impact on Ariba's cash  
 4 balances or net cash flows for any period. In addition to the \$10.0 million payment,  
 5 the adjustment for the chartered air services amounts to \$1.2 million. The cumulative  
 6 adjustments related to the stock options amount to \$7.5 million, consisting of  
 7 increases to Ariba's expenses for fiscal 2000 and 2001 of \$8.7 million and \$12.0  
 8 million, respectively, and a reduction of expenses for fiscal 2002 of \$13.2 million.

9 As a result of these accounting adjustments investors should not rely on the  
 10 financial information contained in the company's previously filed annual report on  
 11 Form 10-K for the fiscal years ended September 30, 2000 and September 30, 2001 or  
 12 in the company's quarterly report on Form 10-Q for the quarters ended March 31,  
 13 2000 through June 30, 2002.

14 The ongoing accounting review is focused on the company's fiscal 2000  
 15 financial statements. Ariba is committed to performing a complete and thorough  
 16 review of these matters and expects the review to be completed by the end of  
 17 February 2003. Ariba intends to file its annual report on Form 10-K for the fiscal  
 18 year ended September 30, 2002 after the completion of the review.

19 Ariba also announced that it expects to receive a Nasdaq staff determination  
 20 that it is subject to delisting from the Nasdaq Stock Market as a result of failing to  
 21 timely file its annual report on Form 10-K for the fiscal year ended September 30,  
 22 2002. Upon receipt of this determination, Ariba intends to request a hearing before a  
 23 Nasdaq panel to review the staff determination. There can be no assurance that the  
 24 Nasdaq panel will grant Ariba's request for continued listing.

25 30. The fact that Ariba will restate its financial statements for 2000-2002 is an admission  
 26 that the financial statements originally issued were false and that the overstatement of revenues and  
 27 income was material. Pursuant to GAAP, as set forth in Accounting Principles Board Opinion  
 28 ("APB") No. 20, the type of restatement announced by Ariba was to correct for material errors in its  
 previously issued financial statements. See APB No. 20, ¶¶ 7-13. The restatement of past financial  
 statements is a disfavored method of recognizing an accounting change as it dilutes confidence by  
 investors in the financial statements, it makes it difficult to compare financial statements and it is  
 often difficult, if not impossible, to generate the numbers when restatement occurs. See APB No.  
 20, ¶14. Thus, GAAP provides that financial statements should only be restated in limited  
 circumstances, *i.e.*, when there is a change in the reporting entity, there is a change in accounting  
 principles used or to correct an error in previously issued financial statements. Ariba's restatement  
 was not due to a change in reporting entity or a change in accounting principle, but rather to errors

1 in previously issued financial statements. Thus, the restatement is an admission by Ariba that its  
 2 previously issued financial results and its public statements regarding those results were false.

3       31. Due to these accounting improprieties, the Company presented its financial results  
 4 and statements in a manner which violated GAAP, including the following fundamental accounting  
 5 principles:

6           a.       The principle that interim financial reporting should be based upon the same  
 7 accounting principles and practices used to prepare annual financial statements was violated (APB  
 8 No. 28, ¶10);

9           b.       The principle that financial reporting should provide information that is  
 10 useful to present and potential investors and creditors and other users in making rational investment,  
 11 credit and similar decisions was violated (FASB Statement of Concepts No. 1, ¶34);

12          c.       The principle that financial reporting should provide information about the  
 13 economic resources of an enterprise, the claims to those resources, and effects of transactions,  
 14 events and circumstances that change resources and claims to those resources was violated (FASB  
 15 Statement of Concepts No. 1, ¶40);

16          d.       The principle that financial reporting should provide information about how  
 17 management of an enterprise has discharged its stewardship responsibility to owners (stockholders)  
 18 for the use of enterprise resources entrusted to it was violated. To the extent that management offers  
 19 securities of the enterprise to the public, it voluntarily accepts wider responsibilities for  
 20 accountability to prospective investors and to the public in general (FASB Statement of Concepts  
 21 No. 1, ¶50);

22          e.       The principle that financial reporting should provide information about an  
 23 enterprise's financial performance during a period was violated. Investors and creditors often use  
 24 information about the past to help in assessing the prospects of an enterprise. Thus, although  
 25 investment and credit decisions reflect investors' expectations about future enterprise performance,  
 26 those expectations are commonly based at least partly on evaluations of past enterprise performance  
 27 (FASB Statement of Concepts No. 1, ¶42);

28

1                 f.         The principle that financial reporting should be reliable in that it represents  
 2 what it purports to represent was violated. That information should be reliable as well as relevant is  
 3 a notion that is central to accounting (FASB Statement of Concepts No. 2, ¶¶ 58-59);

4                 g.         The principle of completeness, which means that nothing is left out of the  
 5 information that may be necessary to insure that it validly represents underlying events and  
 6 conditions was violated (FASB Statement of Concepts No. 2, ¶79); and

7                 h.         The principle that conservatism be used as a prudent reaction to uncertainty  
 8 to try to ensure that uncertainties and risks inherent in business situations are adequately considered  
 9 was violated. The best way to avoid injury to investors is to try to ensure that what is reported  
 10 represents what it purports to represent (FASB Statement of Concepts No. 2, ¶¶ 95, 97).

11                 32.         Further, the undisclosed adverse information concealed by defendants during the  
 12 Class Period is the type of information which, because of SEC regulations, regulations of the  
 13 national stock exchanges and customary business practice, is expected by investors and securities  
 14 analysts to be disclosed and is known by corporate officials and their legal and financial advisors to  
 15 be the type of information which is expected to be and must be disclosed.

#### CLASS ACTION ALLEGATIONS

17                 Plaintiff bring this action as a class action pursuant to Rule 23(a) and (b)(3) of the Federal  
 18 Rules of Civil Procedure on behalf of a Class consisting of all persons and entities who purchased or  
 19 otherwise acquired Ariba common stock from January 11, 2002 through January 15, 2003,  
 20 inclusive, and who were damaged thereby. Excluded from the Class are defendants, officers and  
 21 directors of the Company, members of their immediate families, and their legal representatives,  
 22 heirs, successors or assigns and any entity in which defendants have or had a controlling interest.

23                 33.         During the Class Period, thousands of shares of common stock of Ariba were traded  
 24 on an efficient and developed securities market. Thousands of brokers nationwide have access to  
 25 trading information about Ariba.

26                 34.         The members of the Class are so numerous that joinder of all members is  
 27 impracticable. While the exact number of Class members is unknown to plaintiff at this time and  
 28 can only be ascertained through appropriate discovery, plaintiff believes that there are hundreds of

1 members of the Class. Ariba has hundreds of thousands of shares of common stock outstanding and  
 2 actively traded on the NASDAQ, an efficient market, under the ticker symbol "ARBAE".

3       35. Plaintiff's claims are typical of the claims of the members of the Class as all  
 4 members of the Class are similarly affected by defendants' wrongful conduct in violation of federal  
 5 law that is complained of herein.

6       36. Plaintiff will fairly and adequately protect the interests of the members of the Class  
 7 and has retained counsel competent and experienced in class and securities litigation. Plaintiff has  
 8 no interests that are adverse or antagonistic to those of the Class.

9       37. A class action is superior to other available methods for the fair and efficient  
 10 adjudication of this controversy. Because the damages suffered by many individual Class members  
 11 may be relatively small, the expense and burden of individual litigation make it virtually impossible  
 12 for the Class members to individually seek redress for the wrongful conduct alleged herein.

13       38. Common questions of law and fact exist as to all members of the Class and  
 14 predominate over any questions affecting solely individual members of the Class. Among the  
 15 questions of law and fact common to the Class are:

16           a. whether the federal securities laws were violated by defendants' acts as  
 17 alleged herein;

18           b. whether defendants participated in and pursued the common course of  
 19 conduct complained of herein;

20           c. whether documents, press releases and other statements disseminated to the  
 21 investing public and the Company's shareholders during the Class Period misrepresented the  
 22 business condition of Ariba;

23           d. whether defendants failed to correct prior statements when subsequent events  
 24 rendered those prior statements untrue or inaccurate;

25           e. whether defendants acted willfully or recklessly in misrepresenting and/or  
 26 omitting to state material facts;

27

28

1 f. whether the market price of Ariba's common stock during the Class Period  
2 was artificially inflated due to the misrepresentations and/or non-disclosures complained of herein;  
3 and

4 g. whether the members of the Class have sustained damages, and, if so, what is  
5 the proper measure thereof.

6       39. Plaintiff will rely, in part, upon the presumption of reliance established by the  
7 fraud-on-the-market doctrine in that:

8                   a. defendants made public misrepresentations or omitted material facts during  
9 the Class Period, as alleged herein;

b. the misrepresentations and/or omissions were material;

c. Ariba's common stock was traded in an efficient market;

12                   d.         the misrepresentations and/or omissions alleged tended to induce reasonable  
13 investors to misjudge the value of Ariba shares; and

14 e. plaintiff and members of the Class acquired their shares between the time  
15 defendants made the misrepresentations and/or omissions and the time the truth was revealed,  
16 without knowledge of the falsity of the misrepresentations.

## COUNT I

**(Violations of Section 10(b) of the Exchange Act  
and Rule 10-5 Promulgated Thereunder)**

20 40. Plaintiff repeats and realleges the allegations above as though fully set forth herein.

21       41. During the Class Period, the defendants, and each of them, carried out a plan, scheme  
22 and course of conduct which was intended to and, throughout the Class Period, did: (i) deceive the  
23 investing public, including plaintiff and the other class members, as alleged herein; (ii) artificially  
24 inflate and maintain the market price of Ariba; and (iii) cause plaintiff and other members of the  
25 Class to purchase Ariba securities at inflated prices. In furtherance of this unlawful scheme, plan  
26 and course of conduct, defendants, and each of them, took the actions set forth herein.

27       42. Defendants (a) employed devices, schemes, and artifices to defraud; (b) made untrue  
28 statements of material fact and/or omitted to state material facts necessary to make the statements

1 not misleading; and (c) engaged in acts, practices, and a course of business which operated as a  
2 fraud and deceit upon the purchasers of the Company's stock in an effort to maintain artificially  
3 high market prices for Ariba securities in violation of section 10(b) of the Exchange Act and Rule  
4 10b-5.

5       43. The statements made by defendants during the Class Period were materially false and  
6 misleading because at the time they were made, the Company and persons acting as corporate  
7 officers knew or recklessly ignored, but failed to disclose, the matters set forth herein.

8        44. In ignorance of the artificially high market prices of Ariba's publicly traded  
9 securities, and relying directly on defendants or indirectly on the false and misleading statements  
10 made by defendants, upon the integrity of the market in which the securities trade, on the integrity  
11 of the regulatory process and the truth of representations made to appropriate agencies throughout  
12 the Class Period and/or on the absence of material adverse information that was known to  
13 defendants but not disclosed in public statements by defendants during the Class Period, plaintiff  
14 and the other members of the Class acquired Ariba securities during the Class Period at artificially  
15 high prices and were damaged thereby.

16       45. Had plaintiff and the other members of the Class and the marketplace known of the  
17 true financial condition, business prospects and character of leadership of Ariba which were not  
18 disclosed by defendants, plaintiff and other members of the Class would not have purchased or  
19 otherwise acquired their Ariba securities during the Class Period, or would have not done so at the  
20 artificially inflated prices which they paid. Hence, plaintiff and the Class were damaged by  
21 defendants' violations of Section 10(b) and Rule 10b-5.

## **COUNT II**

**(Violation of Section 20(a) of the Exchange Act  
Against the Individual Defendants)**

25       46. Plaintiff incorporates by reference the above paragraphs above as if set forth fully  
26 herein. This Count is asserted against the Individual Defendants.

27        47. Defendants acted as controlling persons of Ariba within the meaning of Section 20 of  
28 the Exchange Act as alleged herein. By reasons of their executive, managerial positions with Ariba,

1 defendants Cruikshank, Eliasen, DeSantis, Hegarty, Kinsey, Kleissner and Krach had the power and  
2 authority to cause the Company to engage in the wrongful conduct complained of herein.

3       48. By reasons of the aforementioned wrongful conduct, defendants Cruikshank, Eliasen,  
4 DeSanctis, Hegarty, Kinsey, Kleissner and Krach are liable pursuant to Section 20(a) of the  
5 Exchange Act. As a direct and proximate result of their wrongful conduct, plaintiff and the other  
6 members of the Class suffered damages in connection with purchasing the Company's securities  
7 during the Class period.

## PRAYER

9 WHEREFORE, plaintiff prays for judgment as follows: declaring this action to be a proper  
10 class action; awarding damages, including interest; and such equitable/injunctive or other relief as  
11 the Court may deem proper.

## JURY DEMAND

13 Plaintiff demands a trial by jury.
